## PRODUCT ANNOUNCEMENT:

# ENERGY STAR LEVEL VI POWER ADAPTERS

ETA-USA is proud to be the first to announce its new line of ENERGY STAR LEVEL VI AC/DC external power supplies for applications requiring 65, 80, 100 and 150 Watts in the industrial and commercial markets. As of February 10, 2016, the US department of energy mandate will take effect to all direct and indirect external power supplies.

ETA-USA remains committed to providing its customers with the efficient power solution for their new and current designs.

See the below table on voltage options and availability dates. All ETA-USA external power adapters are RoHS compliant

WATTAGE	AVAILABLE VOLTAGES	RELEASE DATE
65 W	12V, 15V, 19V, 24V, 36V, 48V	August 2014
80 W	12V, 15V, 19V, 24V, 36V, 48V	September 2014
100 W	12V, 15V, 19V, 24V, 36V, 48V	October 2014
150 W	12V, 15V, 19V, 24V, 36V, 48V	November 2014

#### SAFTEY STANDARDS:

- UL 60950-1
- NEMKO EN60950-1
- CB IEC 60950-1

#### EMC STANDARDS:

- FCC Class B
- CISPR22 Class B
- EN55022 Class B
- CE

All of our Energy Star Level VI adapters are RoHS compliant and UL approved. For Technical information contact [info@eta-usa.com](mailto:info@eta-usa.com) or see our Adapters page under our product guide at: <http://eta-usa.com>
